## Education

- Bachelor of Engineering (Chandigarh University) - **8.2 CGPA** 2020 - 2024
- Class 12th (Lucknow Public School) - **87.4%** 2018 - 2019
- Class 10th (Lucknow Public School) - **90%** 2016 - 2017

## Experience

### Bunk4Study

May 2022 - July 2022

- Reduced web page loading time by 35% and increased the user interaction rate with the website by 30%.
- Developed a front-end web application for a client using **React.js** to serve as a dashboard for users and admins, which includes a login system and responsive user interface.
- Developed and currently maintain an extensive reusable component library for over 50 internal and external web applications, resulting in a 30% reduction in development time for new user interfaces.
- Developed a mobile-first design approach, ensuring that the web application is responsive and performs well on various devices, contributing to increased mobile user engagement.

## Projects

### Tasty Bites

March 2023 - Present

- Built the front-end of a food delivery app using **React.js**, **HTML**, and **CSS**.
- Created custom input component using **Sanity.io** for easy image uploads of menus and manage orders in real-time, which improved the user experience by allowing users to upload images in fewer steps. Increased engagement rate by 30%, allowing restaurant owners to upload 7 menus within 3 minutes.
- Created a web app with a user-friendly interface that enables users to browse the menu, place an order, and make payments orders, and track the status of their orders in real-time.

### Personal Portfolio

January 2023 - March 2023

- Utilized **React.js** and **Firebase** to develop a portfolio website, which included a resume and contact form.
- Developed and launched a visually captivating single page application highlighting professional accomplishments, skills, and portfolio.
- Increased online visibility and engagement, resulting in a 40% increase in client inquiries and 20% higher conversion rate.
